

WHO AM I?

In WhoAmI?, you need to find out who the mystery item is. Use your 10 questions wisely to find out which tags the mystery item has!

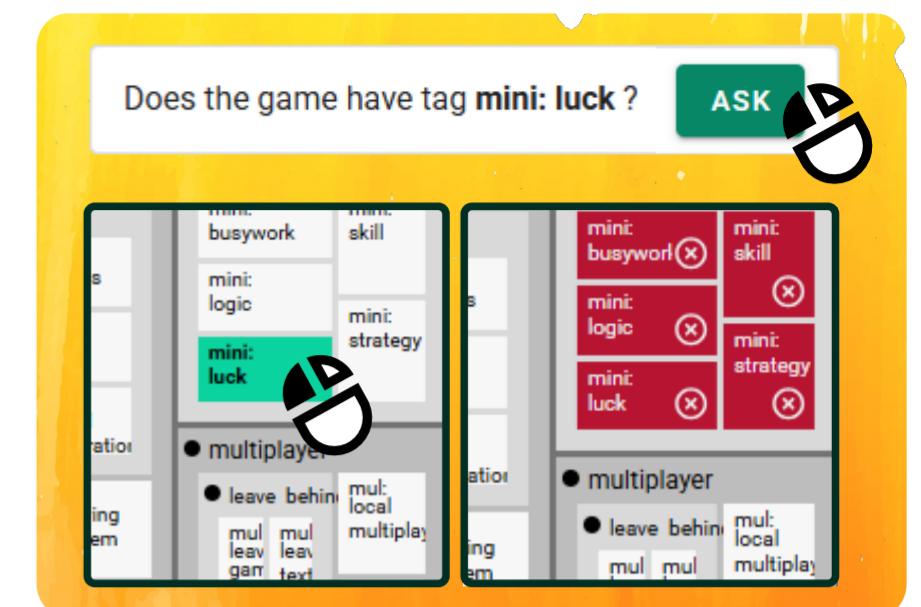

When you think you know who the mystery item is, submit your guess. To help you think, you can hide items or tags you think are irrelevant.

ASK ABOUT TAGS

To ask about a tag, simply select it in the Treemap and then click the **ASK** button.

The color of the tag indicates whether you were right or wrong: green means **YES**, red means **NO**, and yellow means that the mystery item has a **sibling** tag of the one you asked about.

HIDE ITEMS & TAGS

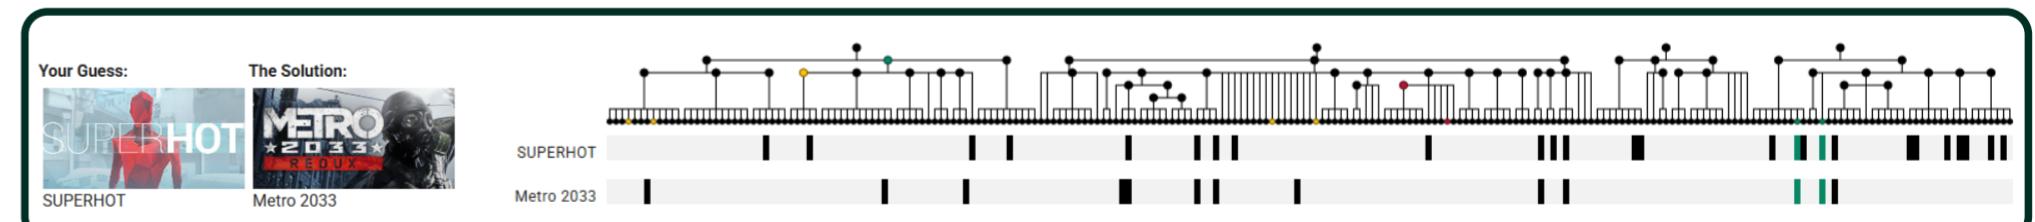

You can hide items by right-clicking them, which renders them at a lower opacity. This can be undone by right-clicking again.

Hiding also works for any tags in the Treemap.

ANALYZE RESULTS

After you submitted your guess who the mystery item is, the solution will be revealed. You can browse all tags of the mystery item and your guess by hovering over the bar codes.

At the bottom, you can see which tags you asked about and which answer you got. To object to a tag assignment, click on a ! button or right-click a tag and clicking on the **! add objection** option.

You can open the item editor by clicking on a teaser.
